## ICEM 2019: Exploiting the latest weather and climate technology to tackle the energy transition

With a stellar line-up of plenary speakers and a packed conference programme, our sixth ICEM is shaping up to be the biggest yet!

The only dedicated event that brings together world-leading research organisations, meteorological service providers, energy companies and energy policy experts, ICEM 2019 is a must for industry and academic delegates alike.

Hear from highly-respected leaders in the energy and climate industries, take part in expert-led workshops and side events, and explore how advances in meteorological and climate information can help the energy industry develop cleaner and more resilient energy systems.

**Early bird registrations close on Friday 26 April, so make sure you register before the deadline to make the most of the early bird discount.**
