### Stakeholder and exploitation workshop

website.

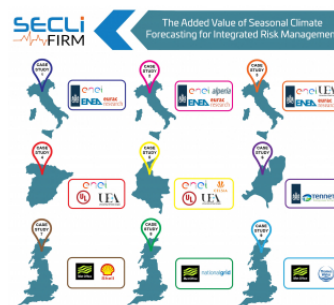

Our next stakeholder and exploitation workshop will take place in September 2019, where we'll be working through the latest research results and establishing the approach for the exploitation stage of the project. We'll publish a full summary of the workshop and its outcomes after the event. Details of our previous workshop in Milan, including presentations, are available on our

---

### Case study updates

SECLI-FIRM focuses on nine global case studies, designed to apply our research to real life decision-making in the energy and water industries. We've now updated most of our case study factsheets with progress so far and the next steps for our project and industry partners.

### Case study updates

## SECLI-FIRM showcased at global events

Seasonal forecasting was in the spotlight at recent events in Vienna, Lisbon and Copenhagen, where representatives of the SECLI-FIRM project showcased the research being undertaken by the project team in collaboration with its industry partners. Find out more on our news page.

### SECLI-FIRM news

## New SECLI-FIRM team interviews

We're delighted to share the first in a series of interviews with some of the science and energy experts who make up the SECLI-FIRM team. First up is Dr Clare Goodess from UEA. We'll be publishing more of these on our website over the next few months, so keep an eye out for the next instalments!

### Team interviews

## Webinars - coming soon

We are planning a new series of webinars covering topics relating to the SECLI-FIRM project. The sessions will be led by seasonal climate forecasting and energy industry

experts, and the first is planned for October. We'll share more details on our news page and social media feeds nearer the time.
