

## C3S CLIMATE ENERGY EDUCATION DEMO

### USER CONSULTATION WORKSHOP

**MONDAY 27 JANUARY 2020  
12:00 –14:00 UTC**

**[REGISTER HERE](#)**

### A NEW TOOL FOR EDUCATION

WEMC, a leading organization in energy and meteorology, is proud to have launched the Copernicus Climate Change (C3S) Climate & Energy Education Demonstrator

**[VISIT THE DEMO](#)**

This new tool is ideal for teachers and students to explore climate and energy data.

Following on from the launch webinar, this first online user-consultation workshop will guide teachers and educators to engage with the tool to experience its educational potential.

The workshop will feature an interview with a teacher, providing their perspective and context to how the C3S Education Demo could be used and applied in the classroom. There will be interactive discussion and tasks allowing attendees to discover for themselves how the tool could be used in different contexts, including beyond education.

**[REGISTER HERE](#)**

After registering, you will receive a confirmation email containing information about how to join the workshop.

For further information, talks, abstracts and presenter biographies, visit [wemcouncil.org](http://wemcouncil.org)  
A recording will be available after the workshop.

## AGENDA

WELCOME & INTRODUCTIONS  
(10 MIN)

---

DEMONSTRATION INCLUDING  
LEARNING EXAMPLE  
(10 MIN)

---

INTERVIEW WITH A TEACHER:  
CONTEXT AND USE  
(20 MIN)

---

OVER TO YOU: TASKS AND ACTIVITIES  
THROUGH ONLINE GROUP WORK  
AND COLLABORATION  
(45 MIN)

---

REFLECTION & EVALUATION  
(30 MIN)

---

NB: Some tasks may require access to third-party collaboration apps such as Google. Registrants will be informed ahead of time which will be used and given instructions to create accounts if necessary.
