

## Reviewing 2019 and looking to the future

This year we've reached the all-important half-way point of the SECLI-FIRM project, and with it comes a host of changes and updates to share.

So, in this newsletter we're taking a look back at what we've achieved over past year. And since the next 18 months of the project promise to be busy, we're offering you a peek at what's to come too.

## Bringing Case Study 7 to life

Made with support from our project partners, this video aims to **raise awareness** of seasonal forecasting for off-shore maintenance, and **showcases other potential benefits** for the energy industry. **Watch now!**

## New FREE webinar series

On **Wednesday 15th January 2020 at 11am UTC**, we'll be hosting a **FREE SECLI-FIRM webinar** with talks from **Prof. Alberto Troccoli** and **Dr Clare Goodess**. **Register today.**

## Our September workshop

**Find out what happened** during the third SECLI-FIRM workshop in mid-September, including networking nights, stakeholder communications and a project workshop.

## May 2020 stakeholder workshop

The next SECLI-FIRM workshop will be held in **Brussels** on **Thursday 14th May 2020**. We hope to gain stakeholder feedback and finalise the design of our tailored service. Don't miss out, **save the date!**

## Meet project team members

Discover the experts behind SECLI-FIRM in our Team Member Interviews with information on their roles, careers, passions and goals. **Find out more today!**
